**Content****Meets Specifications**

- All resume sections (biography, education, work, projects, footer) include real or fake data

**Function Use****Meets Specifications**

- All resume sections are built using modular functions which can run in any order

**Encapsulation****Meets Specifications**

- All code to display each resume section is contained within the object with the data for the same section

**Additional Interactivity****Exceeds Specifications**

- The resume contains an interactivity in addition to the map (i.e. menu navigation, polymer components)
  - Nice job adding the "earliest" and "latest" under work-experience. It's very original.

**Artistic Creativity****Exceeds Specifications**

- Resume includes custom CSS that alters colors as well as layouts of the page

PROJECT EVALUATION
